## President's Message

The Student Council has enjoyed a very successful term, from the colourful campaigning in the fall to the year's end, and it was an honour to serve as President over such a co-operative and able council.

After sponsoring a Halloween Dance, the council began work on the formation of a year book. Various committees were set up and a Year-book staff formed. The fine result of this is very obvious. This the first B.H.S. Yearbook since I was in Grade nine and the Editorial staff should be commended for producing such an inspiring Yearbook.

The Student letter committee, set up by the council, has done an excellent job in categorizing and establishing a permanent record of deserving Students. We were very proud to have had nine students receive the Student Letter at Commencement this year and hope to increase this number in future years, as the council has extended the point system over a greater number of activities.

The Council is planning to put a great deal of work into the organization of our Blossom Queen Dance this year. It is unfortunate that the yearbook was published too early to cover this event but I'm sure it will be a success.

I should like to thank our staff advisors Mr. C. Stiver and Mr. R. Mummery for the able assistance they have given us this year.

To our graduates the council wishes the greatest success and good fortune. To the students who will be returning, be sure you make the best of your educational opportunities.

*J. George Graham*
